

# CONTENTS

## SCIENTIFIC RESEARCHES

<i>T.A. Fatkhullin</i>	Photometric study of the GRB 000926 host galaxy field .....	5
<i>T.A. Kartasheva</i>	An attempt to refine the component masses of the very close Wolf-Rayet eclipsing binary system CX Cep .....	18
<i>N.F. Vojkhanskaya</i>	Nebulae around precataclysmic binary systems .....	25
<i>I.D. Naidenov</i>	Temporal correlation analysis of V 603 Aql radiation intensity .....	29
<i>Yu.V. Glagolevskij</i>	A new list of effective temperatures of chemically peculiar stars. III .....	33
<i>N.V. Bystrova</i>	Two Zones of the big circle of the Magellanic stream and their study in the neutral hydrogen radio line at 21 cm .....	47
<i>M.A. Al-Wardat</i>	Spectral energy distributions and model atmosphere parameters of the quadruple system ADS11061 .....	51
<i>M.A. Al-Wardat</i>	Spectrophotometry of speckle binary stars .....	58
<i>E.K. Majorova</i>	The computation of the beam pattern of RATAN-600 with allowance for diffraction effects .....	78
<i>G.B. Gelfreikh, L.V. Opeikina</i>	Frequency scanning with RATAN-600 as a radioheliograph .....	95
<i>T.B. Georgiev</i>	Fast image processing method for PC: 6. Resampling of big frames .....	109
<i>T.B. Georgiev</i>	Fast image processing method for PC: 7. From median to mode filtering .....	114
<i>O.V. Verkhodanov, V.K. Kononov</i>	A variant of description of dissimilar astronomical data .....	119
<i>I.D. Naidenov, G.G. Valyavin, S.N. Fabrika, N.V. Borisov, A.N. Burenkov, N.A. Vikul'ev, S.V. Moiseev, D.O. Kudryavtsev, V.D. Bychkov</i>	A spectropolarimeter based on the 6 m telescope fast prime focus spectrograph .....	124
<i>V.K. Kononov, S.V. Pavlov, M.G. Mingaliev, O.V. Verkhodanov, E.K. Nizhelskaya, N.V. Khubieva</i>	ODA-R -- the Bank of observational data of the radiotelescope RATAN-600. The first version .....	131

<i>V.V. Komarov, A.F. Fomenko, V.V. Vitkovskij, V.V. Vlasyuk, V.S. Shergin</i>	A digital TV complex of the 6 m optical telescope BTA for identification of astronomical objects and guiding .....	134
--	--	-----

## DATA ON 2-D SPECTROSCOPY

<i>A.M. Mickaelian, S.A. Hakopian, S.K. Balayan, S.N. Dodonov, V.L. Afanasiev, A.N. Burenkov, A.V. Moiseev</i>	Observations of <i>IRAS</i> galaxies with the 6 m telescope .....	144
